KANSAS CITY, MO.

AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009

4th Quarter Update: October 1, 2011 - December 31, 2011

Grant Detail

Project name:
ARRA HUD Lead Hazard Control Round 15

Description:
The LeadSafe KC Program reduces lead based paint hazards in the homes of children under six years of age. This program is operated by the Kansas City, Missouri Health Department Childhood Lead Poisoning Prevention and Healthy Home Program. The goal of the Lead Safe KC Program is to eliminate lead poisoning in Kansas City by providing blood lead screening, case management services for lead poisoned children, community education and lead hazard control repairs. The CLPPP has a pool of 15 licensed lead abatement companies to perform lead hazard control in homes of low income families.

Funding Source:
Stimulus Funding: $2,998,508
All Other Funding: N/A

Grant Period:
4/13/2009 - 4/13/2012

Significant Progress this Quarter

The LeadSafe KC Project completed 83 units this quarter. The project continues to greatly exceed production goals with current production at 213%. In addition, the project met the OHHLHC December 2011 goal of 95% grant award spending goal as well. The project is on schedule to exceed all goals by close of the grant period. This quarter, LeadSafe KC partnered with Job Corps to complete a Renovation, Repair and Painting Rule class for Job Corps participants. Completing this class will help participants be more competitive in the job market, will meet EPA requirements more easily and will help to protect the families who live in homes undergoing regular renovation and maintenance. Sixty-two people participated in the Job Corps RRP class.
