Finding a capital improvement project & viewing project information

Capital improvements projects can be searched by:

Location: Residents can use this option to search for projects at or near a particular address. If residents wish to search for projects around their home, they can enter their address and click "Search".

Project Name: This option allows searches for projects using key words in the name of the project.

Project Type: This option allows searches for projects of a particular type (i.e. bridges, sanitary sewer).

Project Number: This option allows searches by the project number which is assigned to each project.

City Council District: This option allows searches for projects in a particular City Council District.

Neighborhood: Allows residents to view all projects in a particular neighborhood.

PIAC Number: To view a project that originated via the Public Improvements Advisory Committee request process, search using the assigned PIAC request number.

Results of a Search

Depending on the selected type of search, one or more icons will appear on the map representing an active project.

Once the icon representing the project is selected, project information including current status of the project, upcoming milestones, published newsletters and press releases can be viewed and easily printed.

The screenshot shows a search interface with the following fields: Council District (dropdown), Project Type (dropdown), Neighborhood (dropdown), Project Name (text), Project Number (text, containing 89005409), PIAC Number (text), Address (text), City, State, Zip (text, containing Kansas City MO), and Search Radius (dropdown, containing 4 Miles). Below the search fields are buttons for Search, Clear, and a result count of 1 project found. The map below shows a satellite view of a city street grid with a callout box for the project. The callout box contains the following information: Project Name: (5409) Beardsley Rd. Bridge St Louis Ave. - 17th St.; Project Type: Bridges; Project Num: 89005409; Neighborhood: Quality Hill; Council District: 2; Scope: Replacement of 640 LF of Beardsley Road Bridge, restoration and reconstruction of retaining wall structure and replacement of 1160 LF of roadway, which is located between 12th Street and 17th Street. A link for 'Show all details' is also present.
