

## **ARRA October 2009 Summary Report**

### **Briarcliff Interchange – Surface Transportation Program Project is being contracted and managed by Missouri Department of Transportation**

The Route 9 and Briarcliff Parkway Interchange project will reconstruct existing ramps, build new ramps and add roundabouts to the interchange to improve traffic flow in the area. The Missouri Department of Transportation is managing this project, which has received \$2.5 million in federal ARRA funding. Bids to construct the project were to be opened on October, 23, 2009.
