

ARRA October 2009 Summary Report
Home Weatherization – Housing and Community Development Department

The Home Weatherization program through the American Recovery and Reinvestment Act has spent \$104,400 through September 30th. The majority of those funds have been spent on Training & supplies. The Property Preservation Division of the Housing Department has increased its contractor base from 27 to 51 actively participating out in the field. The Property Preservation Division of the Housing Department has increased its field staff from 4 to 8 full time positions. As of September 30th more than 1,200 applications have been submitted for home weatherization services. The Property Preservation Division must then go out and inspect the properties and verify that they and the owner qualifies for the service before getting bids from the contractors to do the work.
