

Vendor Training Manual

Welcome to the B2Gnow system.

Historically, compliance tracking has been extremely inefficient with time consuming manual processes and paper forms. The B2Gnow system streamlines compliance tracking by streamlining and automating these processes in an intuitive online system. You will receive all your compliance notices via fax or email from now on. You will be provided with a username and password that will allow you to access the system 24 hours a day, 7 days a week to view your contracts, report payments, and track goals. You will quickly realize that the system was implemented to make compliance quicker and easier for vendors.

For support, please contact your local agency, visit the online forums, or click on help from the system menu. Please make a note of who your Contract Compliance Officer is for each of your contracts, because they will be a valuable contact for your project. They will help you with any disputes or questions regarding payments and contracts.

About this Training Manual

We have developed this User Manual as a full, in-depth guide to the system. This Manual will start with the overview of the system, how to navigate through the different modules and lead into showing you more advanced functions. You will be provided with step-by-step instructions, visual aids, short cuts, advice and tips so that you can get the most out of the system.

Chapter One: Looking over the system

Chapter one is a run down of the system. It will provide a guided tour of the basic functions, navigating the system, doing searches, and running reports. By the end of this section you will be able to navigate through the system and manage your account.

Chapter Two: Getting things done

This is where we will really start to get our feet wet by actually viewing contracts, concessions and certifications. You will learn how to use the system to edit various parts of contracts and audits. This is where you will start to communicate with vendors, both Prime and Subs. By the end of this section you will be able to perform the basic functions for managing contracts, concessions and certifications.

How to use this manual

This training manual is divided into chapters based on level of complexity. We kept the basic and easy in the beginning working toward the more complex functions. You can choose to read this manual from front to back, or you can choose to use it as a reference. You may use the highly detailed Table of Content to simply find the subject you are looking for and go directly to that topic without having to leaf through the other sections.

It is best to use this manual while you are logged into the system. We find you will learn the functions better and faster by actually performing them yourself. Your contracts might not be exactly the same as the samples in this manual, but you can do the same functions with your own contracts as the ones shown in this manual.

In this manual, we have tried to provide the easiest and best way to use the system. Unlike any other application, the method we show you might not be the **ONLY** way and as you learn the system better you will find and use shortcuts or perhaps you might like to have the left menu fully expanded for easier access to tasks. As long as you are able to complete your tasks and the data is correct and accurate, then we encourage you to use the method that works best for you.

Security FAQ

The system is extremely secure. When you log in, you are assigned a unique, temporary identifier. The identifier will expire within four hours. Using the system will refresh the expiration of the identifier, so that you can continue your work. When you are finished, we recommend logging out before you close your Internet browser. This will delete the identifier, preventing someone from using your computer to gain access to your account.

Your data is protected at all times. It is stored on top-of-the-line servers that are protected by multiple hardware and software firewalls. Confidential data is protected by industrial-strength encryption.

No other users can access your account. Your username and password are unique. **NEVER** give these to any one else. If someone in your organization requires access to the system, you can set up a new account for them. Other users in your organization can see the same information as you, depending upon their access settings.

Chapter 1: Looking over the system

Overview of the System

A vendor can be a prime on one contract and a subcontractor on another. In addition, a vendor might be certified by any number of organizations that use the system.

Account Type

Vendor

1. Maintain contact information up to date in system.
2. Must complete contract and/or concession audit lines to stay current.
3. If prime contractor, close contract audits when all info is reported and project is complete.
4. If subcontractor, must mark work as complete when final payment is made and they are no longer working on project.

Types of Notifications

The following is a list of automatically generated notifications sent to the users by the system. Replying directly to these notices will reach a Customer Support representative; however, in more complex cases it is best to contact the Contract Compliance Officer directly. Their contact information is usually included in the body of each of these notifications.

- Contract or Concession Monitoring Notice
- REMINDER - Contract or Concession Monitoring Notice
- Unresponsive Subcontractors Notice
- Discrepancy Notice

Getting Started

How to receive your username/password

System Access Login

Username:

Password:

[Forgot Password](#)
[Password Lookup](#)
[Help/First Time Visitors](#)

- [About the System](#)
- [Information for Staff](#)
- [Information For Vendors](#)
- [Vendor Registration](#)
- [Contact Us, Support](#)
- [Terms of Service, Privacy Policy](#)

When you visit your MWDBE site you will see a log in screen that looks like this.

Click on **Forgot Password**.

Password Reminder

Enter your email address, username, or user number in the box below and we will send your password to your registered e-mail address or fax number. If you do not know your username, you can [look it up](#).

Type in your email address and click on **Submit**.

Within a few minutes, check your email. You should have a notice that contains your username and password.

**In most cases your username and your email address will be the same.*

In some cases, you will have to send a username/password to vendor.

Search Results

Business	Contact Person	Contact Details	Send Reminder
J.O.A. Construction Company, Inc.	Johnson Akinwusi	P: 713-490-7591 F: 713-490-7595 E: johnson@joacon.com A: 4151 Southwest Freeway, Ste. 320, Houston, TX	Send Reminder
J.O.A. Construction Company, Inc.	Renee Phelps	P: 713-490-7591 F: 713-490-7595 E: rphelps@joacon.com A: 4151 Southwest Freeway, Ste. 320, Houston, TX	Send Reminder

From the list of results, find the person to whom you want to send the reminder. Click on **Send Reminder**.

With in a few moments, they should receive a username/password notice.

Note: If they do not receive a username/ password notice, it could be that their current email does not match the email in the system. Re do the search and verify the email address. If it is incorrect, you will have to edit their email address. See **Editing Vendor Information**.

Logging in for the first time

Once you receive your username and password you are ready to get started.

System Access Login

Username:

Password:

[Forgot Password](#)
[Password Lookup](#)
[Help/First Time Visitors](#)

- [About the System](#)
- [Information for Staff](#)
- [Information For Vendors](#)
- [Vendor Registration](#)
- [Contact Us, Support](#)
- [Terms of Service, Privacy Policy](#)

Visit the MWDBE site and type in your username and password into the designated fields. Click on **Login**.

The very first screen you will see is our Welcome Page.

Welcome to our system!

Our system is designed to make data gathering simpler and faster. Please review the information below before continuing to ensure that you maximize your

Security

- » Change your password immediately if someone else set up your account.
- » Do not use someone else's account. Every person must have their own account. If you do not know how to set up a user account, please contact us through the messaging system: from the left menu, click **Message**, then **Contact System Support**.

Navigating

- » All system functions are available from the menu on the left. Just click any of the topics to view the subitems. This menu is visible at all times.
- » The page you will see after this welcome screen is your dashboard. It provides a quick summary of your assigned records, and identifies if immediate action is required.

Finding Records

- » If you need to find a particular record (contract, vendor, user, certification), the best place to start is Search. From the left menu, click **Search**, then select the type of record you need to find. For tips on searching the system, download the Quick Guide listed below.

Help & Support

- » Download the support guide in PDF format - [Download Support Guide](#).
- » More help options are available from the left menu under **Help & Support**, including our online help system, a Forums module, and messaging tools.

Do not show this page again.

[Customer Service](#) [Home](#) | [Help](#) | [Print This Page](#)

Copyright © 2006 B2Gnow. All rights reserved.

Please take the time to read the information on this page. Under help and support there is a PDF downloads, the Vendor Quick Guide. This guide can be used as a quick reference to the system. They are laid out in an FAQ format and is no longer than 14 pages.

Your Dashboard

After clicking **Continue** on the Welcome Page you will automatically be taken to your Dashboard. From this page, you can pretty much link to anywhere in the system. The Stat chart in the middle shows you a quick highlight of what is going on with your contracts. The items in RED are issues that need your immediate attention. To immediately address the issues in RED, simply click on the link and it will take you directly to the page where you need to go to resolve the issue.

Search Tips for the System

- Start with **one** parameter. Usually one, and sometimes two parameters, is sufficient to find the record you are looking for. The more specific your search terms, the more likely the record will **not** match the terms due to spelling, order, or other variations.
- Keep the search parameters short. Use **ACME** instead of **ACME Construction, Inc.** You can even use partial words, such as **envi** instead of typing **environmental consultant**.
- The system will ignore punctuation. **C & C** is treated the same as **C and C**; **C. C.** is the same as **C C**.
- Become familiar with the possible settings and options. The record you are seeking may not be displayed because you have selected the wrong option. Or too many records were returned because you did not narrow the search parameters.
- When searching for businesses that are named for their founder, such as **John Smith & Co.**, it may be listed as **John Smith and Co.** or **Smith, John and Co.** You may need to search for both versions. Start by searching just for one of the names, such as **Smith**.
- The search is not case sensitive. **ACME** is treated the same as **acme**.
- When searching by first name, be aware that users may be listed by alternate names. For example: **James, Jim, Jimmy,** or **J**
- When searching by contract or project number, where you are typing a specific reference, your number must be exactly correct. It does **not** have to be complete (type **C53** to view all contracts that have **C53** in the contract number, such as **C531, C532, C53B, C53980** etc.), but **C53** will not find **C35**.

Configuring your settings

Change your Password

After first logging into the system, you might be prompted to change your password.

Vendor Console: Change Password HELP

You can select a new password, which must be between 3 and 15 characters, and can include letters and numbers.

Make your password something easy to remember, but difficult for others to guess. For security purposes, it's a good idea to change your password every month.

Do **not** make your password the same as your username or your first or last name, as these are too easy for an intruder to guess. **Never** share your password with anyone else. If another person in your organization needs access to the system, please contact us, and we can show you how to set up an additional account for them.

When you change your password, you will receive a confirmation email or fax. You can also contact B2Gnow to get your password reset.

*** required text**

Old Password *	<input type="text"/>
New Password *	<input type="text"/>
Type New Password Again *	<input type="text"/>

[Customer Service](#)

You can report a problem. The more information given about the problem the faster we can address the issue.

We definitely encourage all users to report any bugs in the system they might find.

We are constantly working with the system, doing improvements and making it better.
